

# OnClientMouseMove

This event is triggered each time the user moves the mouse on top of a GUI element.

## Parameters

`int absoluteX`, `int absoluteY`

- **absoluteX**: the X position of the mouse cursor, in pixels, measured from the left side of the screen.
- **absoluteY**: the Y position of the mouse cursor, in pixels, measured from the top of the screen.

## Source

The source of this event is the GUI element on which the mouse was moved.
