

GuiGridListSetColumnTitle

This function is used to change the column title of a gridlist column.

Syntax

```
bool guiGridListSetColumnTitle( element guiGridlist, int columnIndex, string title )
```

OOP Syntax [Help! I don't understand this!](#)

Method: *GuiGridList:setColumnTitle(...)*

Required Arguments

- **guiGridlist:** The grid list you want to change the column title from
- **columnIndex:** Column ID
- **title:** The title of the column

Returns

Returns *true* if the new title was set, or *false* otherwise.

Requirements

Minimum server version	n/a
Minimum client version	1.3.1-9.04949.0

Note: Using this feature requires the resource to have the above minimum version declared in the meta.xml **<min_nrp_version>** section. *e.g.* `<min_nrp_version client="1.3.1-9.04949.0" />`
