

# IsElementStreamable

This function checks whether an element is streamable as set by setElementStreamable or not.

## Syntax

```
bool isElementStreamable ( element theElement )
```

**OOP Syntax** Help! I don't understand this!

- Method:** *element:isStreamable(...)*
- Variable:** *.streamable*
- Counterpart:** *setElementStreamable*

## Required Arguments

- **theElement:** The element to check the streamability of.

## Returns

Returns *true* if the passed element is streamable like normal, *false* if this element must always be streamed in.
