

SetWindowFlashing

This function allows the window to flash in the Windows taskbar.

Syntax

```
bool setWindowFlashing ( bool shouldFlash [, int count = 10 ] )
```

Required Arguments

- **shouldFlash:** whether the window should flash

Optional Arguments

- **count:** the number of times the window should flash, defaults to **10 times**

Returns

Returns **false** if:

- the window is already in focus
- the client has disabled this feature

Returns **true** otherwise
