

GuiGridListGetColumnName

This function is used to get the column title of a gridlist column.

Syntax

```
string guiGridListGetColumnName( element guiGridlist, int columnIndex )
```

OOP Syntax Help! I don't understand this!

Method: *GuiGridList:getColumnName(...)*

Required Arguments

- **guiGridlist:** The grid list you want to get the column title from
- **columnIndex:** Column ID

Returns

Returns a string containing the column title, or *false* otherwise.

Requirements

Minimum server version	n/a
Minimum client version	1.3.1-9.04949.0

Note: Using this feature requires the resource to have the above minimum version declared in the meta.xml **<min_nrp_version>** section. *e.g.* `<min_nrp_version client="1.3.1-9.04949.0" />`
