

# EngineRestoreTXDImage

ADDED/UPDATED IN VERSION 1.6.0 r21695:

This function restores changes to TXD file from IMG container.

**Warning:** This article is incomplete and may contain errors

## Syntax

```
bool engineRestoreTXDImage ( int modelID )
```

**OOP Syntax** Help! I don't understand this!

**Method:** *EngineIMG(...)*

## Required Arguments

- modelID:** ID of the model you want to restore.

## Returns

Returns *true* if IMG file was successfully restored, *false* otherwise.
