

GuiScrollPaneSetVerticalScrollPosition

This function is used to set the position of a vertical scroll pane as a percentage.

Syntax

```
bool guiScrollPaneSetVerticalScrollPosition ( element verticalScrollPane, float position )
```

Required Arguments

- **verticalScrollPane:** The scroll pane you want to change the position of
- **position:** a float ranging from 0 - 100

Returns

Returns **true** if the position was set, **false** otherwise.
