

EngineImageLinkDFF

ADDED/UPDATED IN VERSION 1.6.0 r21695:

This function links DFF file with an IMG container.

Syntax

`boolean engineImageLinkDFF (img img_file, string file_path, int modelID)`

OOP Syntax [Help! I don't understand this!](#)

Method: *img:linkDFF(...)*

Required Arguments

- **img_file:** The IMG file you want to link.
- **file_path:** Path to the DFF file you want to link.
- **modelID:** ID of the model you want to link to.

Returns

Returns *true* if IMG file was successfully linked, *false* otherwise.
