

IsNRPWindowActive

This function returns whether any system windows that take focus are active. This includes:

- Chatbox input
- Console window
- Main menu
- Transferbox

To get the status of the debug view, see isDebugViewActive.

Note: You cannot rely on this function to get the focus state of the NRP window - use isNRPWindowFocused instead

Syntax

bool isNRPWindowActive ()

OOP Syntax [Help! I don't understand this!](#)

Method: *GuiElement.isNRPWindowActive(...)*

Returns

Returns *true* if the focus is on the NRP window, *false* if it isn't.
