

EngineSetModelTXDID

ADDED/UPDATED IN VERSION 1.6.0 r22190:

This function changes the TXD ID of the given model ID.

Syntax

```
bool engineSetModelTXDID( int modelID, int txdID )
```

OOP Syntax [Help! I don't understand this!](#)

Method: *Engine.setModelTXDID(...)*

Required Arguments

- **modelID:** The ID of the model to update TXD ID.
- **txdID:** The ID of target TXD. Use engineRequestTXD to get a new TXD ID.

Returns

Returns *true* if this function succeeds, throw a error if it fails for some reason.
