GuiGridListIsSortingEnabled

This function checks whether the gridlist sorting is enabled or disabled.

Syntax

```
bool guiGridListIsSortingEnabled ( element guiGridlist )
```

OOP Syntax Help! I don't understand this!

Method: *GuiGridList:isSortingEnabled(...)*
Variable: *.sortingEnabled*

Required Arguments

- **guiGridlist:** The GUI gridlist you wish to check if sorting is enabled or not.

Returns

Returns *true* if sorting is enabled, *false* otherwise.
