IsElementAttached

This functions checks whether or not an element is attached to another element.

Syntax

```
bool isElementAttached ( element theElement )
```

OOP Syntax Help! I don't understand this!

> **Method**: *element:isAttached(...)*
> **Variable**: *.attached*

Required Arguments

* **theElement:** The element to check for attachment.

Returns

Returns *true* if the specified element is attached to another element, *false* if it is not attached or *nil* if an improper argument was passed.
