GetDiscordRichPresenceUserID

> **Important Note:** The function will correctly return the UserID if the user has given consent beforehand and is connected to the Rich Presence application.

ADDED/UPDATED IN VERSION 1.6.0 r22342:

The function returns the client Discord UserID.

Syntax

```
string getDiscordRichPresenceUserID()
```

Returns

It will return an *empty string ("")* if the user has not given consent or has disabled the Rich Presence synchronization option. Otherwise, it will return the *userid* as a string.
