GuiEditGetMaxLength

This function returns the maximum text length that can be typed within an edit box.

Syntax

```
int guiEditGetMaxLength ( gui-edit guiEdit )
```

OOP Syntax Help! I don't understand this!

> **Method**: *GuiEdit:getMaxLength(...)*
> **Variable**: *.maxLength*
> **Counterpart**: *guiEditSetMaxLength*

Required Arguments

- **guiEdit:** The edit box you want to get the maximum text length of.

Returns

Returns the maximum text length on success, *false* otherwise.
